LIAISON TEAM – AI SMART CITY LEADERS

RESPONSIBLE FOR COORDINATING BETWEEN MUNICIPAL AUTHORITIES, PRIVATE SECTOR PARTNERS, AND PROJECT ADVISORS WITHIN THE AI SMART CITY LEADERS PROGRAM TO ENSURE SMOOTH AND EFFECTIVE PROJECT EXECUTION.

PROJECT MANAGER (SMART CITY PROJECT MAERAM)

I SERVED AS THE PROJECT MANAGER FOR THE SMART CITY PROJECT OF MAERAM SUBDISTRICT MUNICIPALITY, RESPONSIBLE FOR COORDINATING WITH RELEVANT STAKEHOLDERS AND GATHERING AND ANALYZING REQUIREMENTS FROM CLIENTS AND KEY STAKEHOLDERS. THESE INSIGHTS WERE USED TO PLAN AND DEVELOP APPROPRIATE SOLUTIONS THAT ALIGN WITH THE LOCAL CONTEXT AND CAN BE EFFECTIVELY IMPLEMENTED IN PRACTICE.

THE CORE SYSTEM WAS DEVELOPED ON THE MUNICIPALITY'S LINE OFFICIAL ACCOUNT PLATFORM AND INCLUDES SEVERAL KEY FEATURES. THESE INCLUDE AN HOURLY WATER LEVEL ALERT SYSTEM THAT SENDS IMMEDIATE NOTIFICATIONS WHEN WATER LEVELS EXCEED PREDEFINED THRESHOLDS, WITH DATA SOURCED FROM BOTH MANUAL INPUT BY OFFICIALS AND AN IMAGE PROCESSING SYSTEM DEVELOPED BY THE TEAM. THE PLATFORM ALSO PROVIDES WATER LEVEL HISTORY VISUALIZATION, DISPLAYING HOURLY DATA THROUGH A WEB INTERFACE ALONGSIDE REAL-TIME WATER LEVEL INFORMATION. IN ADDITION, THE SYSTEM FUNCTIONS AS A GATEWAY THAT INTEGRATES THE MUNICIPALITY'S EXISTING COMPLAINT AND GENERAL REQUEST SYSTEMS INTO THE LINE OFFICIAL ACCOUNT, ENHANCING ACCESSIBILITY AND CONVENIENCE FOR CITIZENS.
